

Great Lakes
Dredge & Dock
Company, LLC.

It All Starts with Dredging

Needs for Robust USACE National Dredging Program

- Full Funding
- On Time Budget
- HMTF
- State and local investments
- Stakeholder Engagement
- Beneficial use of Dredged Material
- Regulatory Reform
- Science Based Environmental Monitoring
- Contractual Flexibility
- Industry Technology Investment

It All Starts with Dredging

Needs for Robust Program (Progress)

- Full Funding (Disaster Supplemental)
- On Time Budget (FY 2019)
- HMTF (91% FY 2019, 94% FY 2018)
- State and local investments
(States paying for deepening, establishing state level funds for ports and coasts)
- Stakeholder Engagement (NGO's, Caterpillar, Academia)
- Beneficial use of Dredged Material (WRDA, Pilot Projects)
- Regulatory Reform (Accountability and Deadlines)
- Science Based Environmental Monitoring (In Progress)
- Contractual Flexibility (WRDA and KO engagement)
- Industry Technology Investment (8 major new dredges)

It All Starts with Dredging

Taking advantage of our mutual successes

Next steps related to equipment

- Fewer excuses, more efficiency
- Industry Investment
 - 2 new Hopper dredges (2 more announced)
 - 4 new Cutter dredges
 - 2 new Clamshells
- Corps Hopper Fleet needs attention
 - Old, Expensive, Inefficient
 - Fleet size and purpose under review
- Stakeholders have learned to work together
- Challenges remain to assure best value for dredging dollar
